

Speerpunt Ecosystem & Landscape Services (SELS)

Parallel Session : Payment for ecosystem services

Exploring the potential of nature to improve quality of life

Exploring the potential of nature to improve quality of life

WAGENINGEN UNIVERSITY
WAGENINGEN UR

Parallel Session : Payment for ecosystem services

- John van Himbergen: Introduction Biodiversity Policy Program
- Herman Savenije & Kees van Dijk: Forest Financing Strategies in Latin America
- Leon Braat: the Science – Policy Interface

Parallel Session : Payment for ecosystem services

1. What do we need to know (better) to make PES (Payment for Ecosystem Services) work, be fair and sustainable ?
2. Where and how will the “benefits” become tangible and how can they be integrated in (inter)national decisionmaking ?
3. How can the Dutch Biodiversity Policy Programme contribute to the reduction of the Ecological Footprint of the Netherlands ?
4. How does the DBPP affect the international biodiversity situation as compared to the national situation ? (budget, process effort)
